

Test Automation Practice Page Automation Testing

Jira software Tools is Used for project process in Team

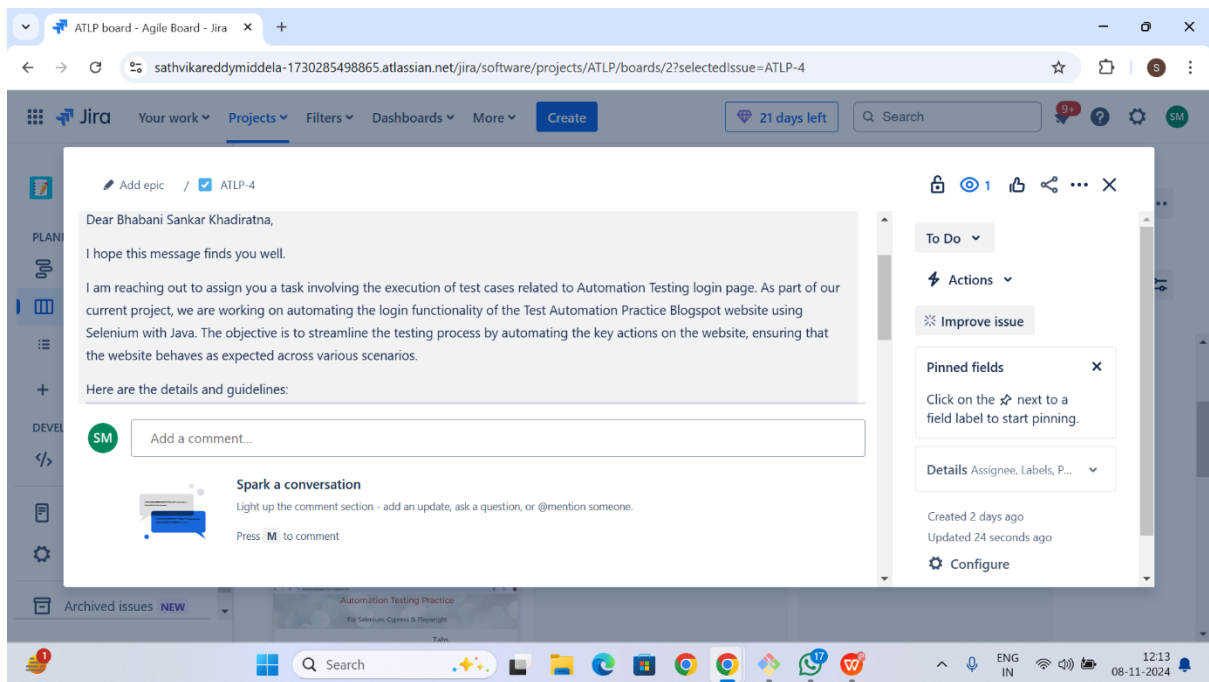

The screenshot shows the Jira 'Create' page for a new project. The left sidebar contains a list of project details: Details, Access, Notifications, Automation, Issue types, Features, Board, Toolchain, and Apps. The main content area is titled 'Automation Testing_Log...' and includes a 'Back to project' button. Below this, there is a 'Change icon' button and a note: 'Required fields are marked with an asterisk *'. The form fields are: 'Name *' with the value 'Automation Testing_Login Page', 'Project key *' with the value 'ATLP', 'Category' with a dropdown menu showing 'Choose a category', and 'Project lead' with the value 'SM Sathvika Middela'.

1. Create an Automation Testing Login page project

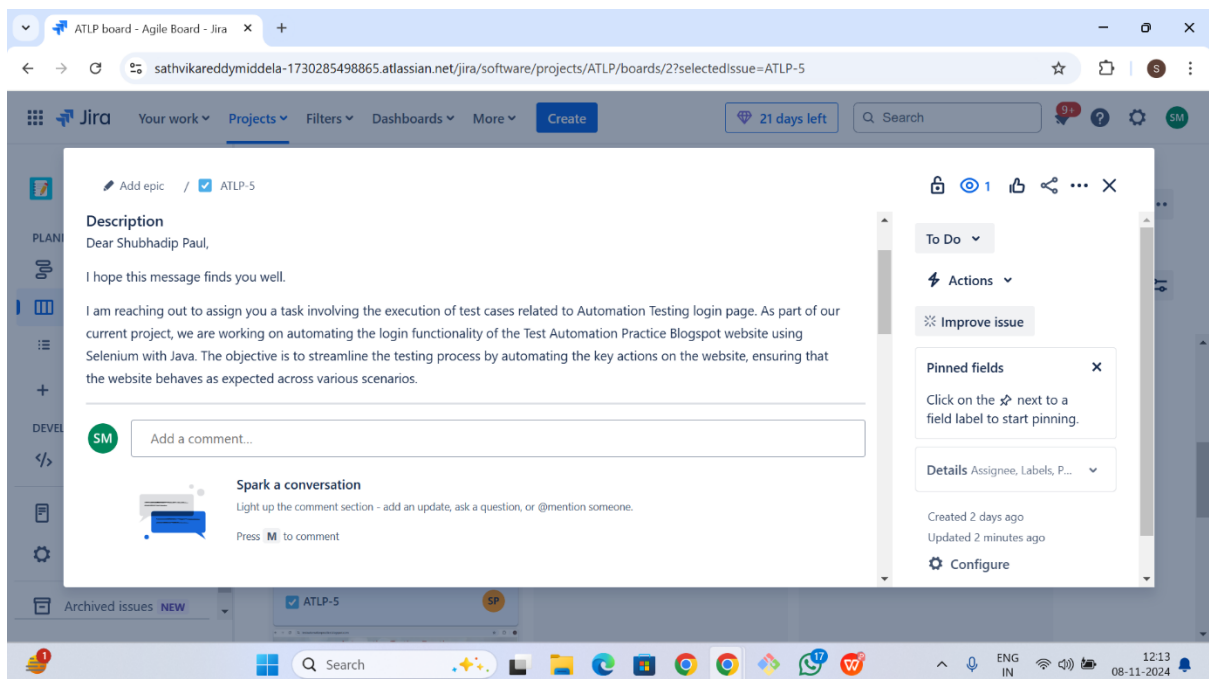

The screenshot shows the Jira 'Create' page for a new task. The left sidebar contains a list of project details: PLANNING, Timeline, Board, List, Add view, DEVELOPMENT, Code, Project pages, Project settings, and Archived issues NEW. The main content area is titled 'ATLP board - Agile Board - Jira' and includes a 'Create' button. Below this, there is a 'Create' modal window. The modal window has a 'Project *' dropdown menu showing 'Automation Testing_Login Page (ATLP)', an 'Issue type *' dropdown menu showing 'Task', and a 'Status' dropdown menu showing 'To Do'. There is a 'Learn about issue types' link and a 'Create another' checkbox. The modal window also has 'Cancel' and 'Create' buttons.

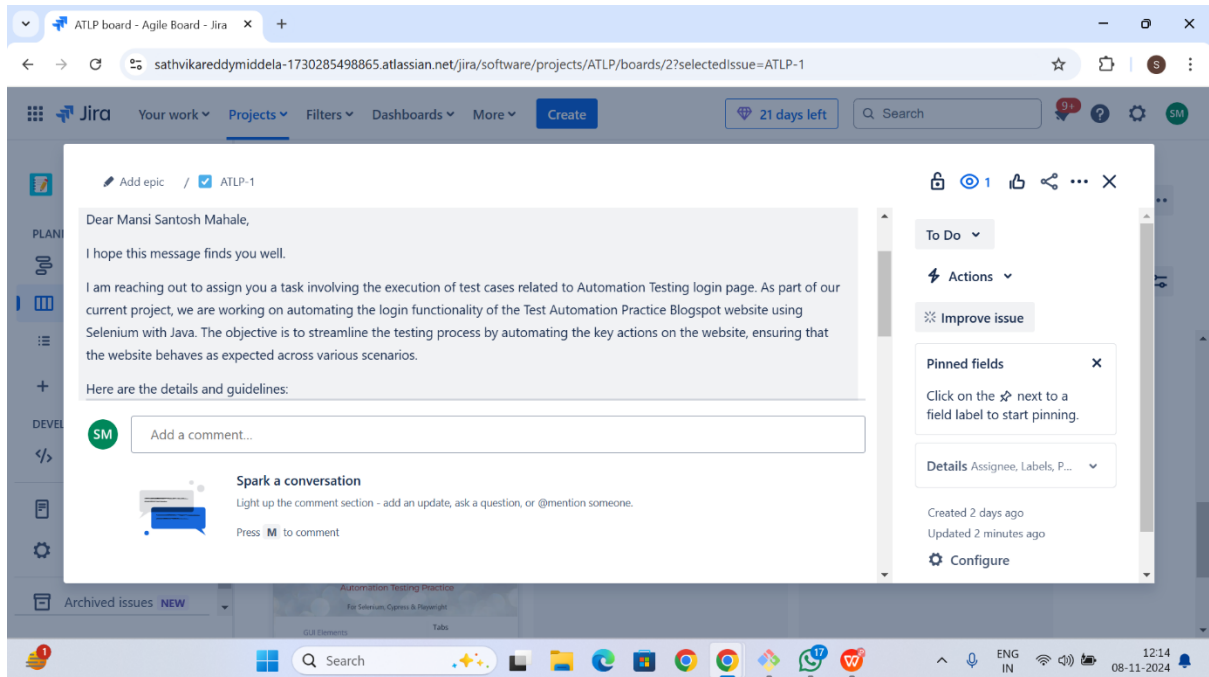

2. Creating a Tasks to assign for Team members

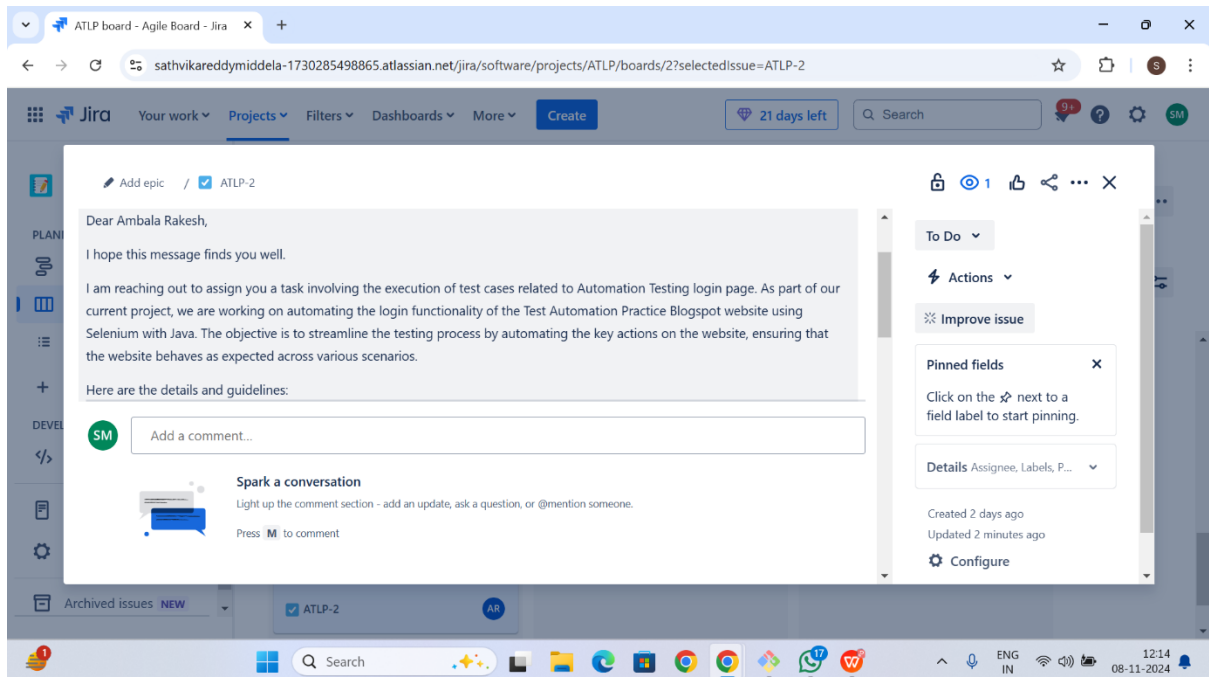

3. Assigned Task to Bhabani Sankar Khadiratna

4. Assigned Task to Shubhadip paul
